How has the Jacksonville International Boat Show become the thriving productive marine market place for the Southeast in this economy?

Strength in numbers ~ Strength of experience

Stronger through Success

April 16th, 17th, & 18th, 2010 on the St. Johns River in downtown Jacksonville, FL @ Metro Park and Marina

We would like to invite you to showcase your product and/or services at The 2010 Jacksonville International Boat Show on the 16th 17th and 18th of April. For 14 years we have been building the Southeast United States Premier spring Boating event, and anyone that has ever been to the Jacksonville International Boat Show will tell you, event is the key word. Recreational boating is the focus of this three day nautical festival, packed with high energy, great food, drinks and fun. Having the best venue in the boat show world with seven acres of park like dry space, a huge fixed floating dock marina with on site convenient parking for 80,000, helps. But that's not what makes this event great, it's you the vendor and our unique and creative approach to showing the boating lifestyle.
